TEAM LEADING

Managing teams and projects to meet an organisation's goals and being able to turn potential into excellence.

The Team Leading Apprenticeship is aimed at emerging leaders or employees who work in a supervisory position. Working in the private, public or third sector and in all sizes of organisations, specific responsibilities will vary.

You will develop your knowledge and skills in supporting, managing and developing team members, managing projects, planning and monitoring workloads and resources, delivering operational plans, resolving problems, and building relationships internally and externally.

The apprenticeship will also focus on key behaviours such as being agile, professional, and having accountability, empowering you to be self-aware and develop a growth mind-set.

LEVEL

3

DURATION

14 -18 MONTHS

COST

THERE ARE TWO MAIN FUNDING METHODS BY WHICH APPRENTICESHIP COSTS CAN BE COVERED: LEVY AND NON-LEVY

HOW WILL THE TRAINING BE DELIVERED?

This apprenticeship programme will focus on 3 areas of learning and development: Knowledge, Skills & Behaviours.

We have replicated what we have learnt on the pitch and applied it to the corporate world. We will embed our corporate athlete tactics, supporting your mental focus, physical capacity, emotional connectivity and aspirational alignment, allowing you to thrive in the most challenging circumstances.

HOME OR AWAY?

Delivery is within the workplace and at the home of your organisation, however you will be invited to masterclasses at our inspiring stadium or other similar sites, away.

It is expected that you will spend 20% of your contractual working hours undertaking learning and development. Reasonable time for training while at work should be given and may include reflection, mentoring and the development of new skills while at work.

HOW WILL I KNOW THE PROGRAMME IS RIGHT FOR ME OR MY COMPANY?

An advisor will discuss job roles, career aspirations and organisations' operational needs, to ensure the right level and programme is chosen. In addition, there will be an initial starting period of analysis, called a Flying Start, where advice and guidance may suggest a different learning path to excellence.

WILL THERE BE AN EXAM?

Yes, apprentices will be formally assessed at the end of their programme by an Independent Examiner. The assessment of competence will include several assessment methods such as Knowledge test, structured competency-based interview, portfolio and professional discussion relating to your CPD activity. The exams may be conducted at the workplace or at another location.

ENGLISH AND MATHEMATICS

If you don't already hold GCSE level A*- C or equivalent in either of these subjects, your programme will include teaching and examination of Level 2 Functional Skills.

You will be required to achieve a Level 2 to complete your apprenticeship.

THE NEXT STEPS

Learners can progress onto an Advanced or Higher Apprenticeship in a vocational expertise in Management.

Available courses:
Level 5 Management, Chartered Managers Status or Higher Education.
